SINCE 2018

# About Us

We are a pioneer Antioquia company in issues related to the Blockchain ecosystem, we are moved by the opportunities offered by these technologies and we believe that great advances can come from anyone. We believe that Blockchain enables the digital society and that in it the truth is built collaboratively. For this reason, we work daily to put our grain of sand in the formation of a more transparent and inclusive future.

**WE COMBINE  
CREATIVITY,  
ANALYSIS AND  
EXPERTISE TO  
GENERATE RESULTS.**

# Our Products

## **ELECTRONIC KIOSKS.**

Kiosks with blockchain technology to help make cryptocurrencies accessible to everyone. We optimize the usability and boom of cryptocurrencies so that our clients can buy and sell them in a timely and secure manner without intermediaries.

## **SOFTWARE.**

We provide ready-to-use applications that work on blockchain in order to accelerate the incorporation of associated Blockchain technologies in companies. These applications can be used as a service or incorporated into an existing Blockchain platform.

## **RIG MINING.**

Due to the great evolution of devices and software, it is now possible to link transactions, their processing and device intelligence through a distributed system around the world. This system allows the use of hardware to validate the transactions carried out on the Blockchain network and obtain dividends.
